

CYBO WEBI NARS

**11 October 2022 -
13 December 2022**

Online event via Teams

**When PhD students and
post-docs meet, that's when
CYBO takes shape!**

CYBO (Conference of Young Botanists) is a conference from young researchers, for young researchers.

We want to bring together PhD students and post-docs, creating an opportunity for dialogue and networking tailored for early career scientists in a multidisciplinary environment.

11 Oct 2022, 10:00 am

The use of native seeds for the restoration of degraded ecosystem.

Simone Pedrini, Curtin University

21 Oct 2022, 10:00 am

Origin, evolution and future diversity of flowering plants

Daniele Silvestro, University of Fribourg

08 Nov 2022, 2:30 pm

Impact of climate and land use change in a fragmented landscape

Cecile Albert, Institut Méditerranéen de Biodiversité et d'Ecologie Marine et Continentale (IMBE)

22 Nov 2022, 2:30 pm

What does it mean to manage an invasive alien plant? The scientific contribution to halt a global emergency

Giuseppe Brundu, University of Sassari

02 Dec 2022, 2:30 pm

Studying the seaweed biodiversity: from herbarium specimens to molecular data

Simona Armeli Minicante, Consiglio Nazionale delle Ricerche

06 Dec 2022, 2:30 pm

Evolutionary and taxonomic studies on Mediterranean plant groups

Konstantina Koutroumpa, Freie Universität Berlin

13 Dec 2022, 2:30 pm

Using microrefugia to reduce species vulnerability to climate change: a case study for forest epiphytes

Christopher Ellis, Royal Botanical Garden Edinburgh

COMING SOON...

**CYBO 2023 CONFERENCE
9-10 FEBRUARY 2023
IN BOZEN/BOLZANO (ITALY)**
